

Installation:

1. Double-click on “forum-warrior.exe” and the following screen will appear:

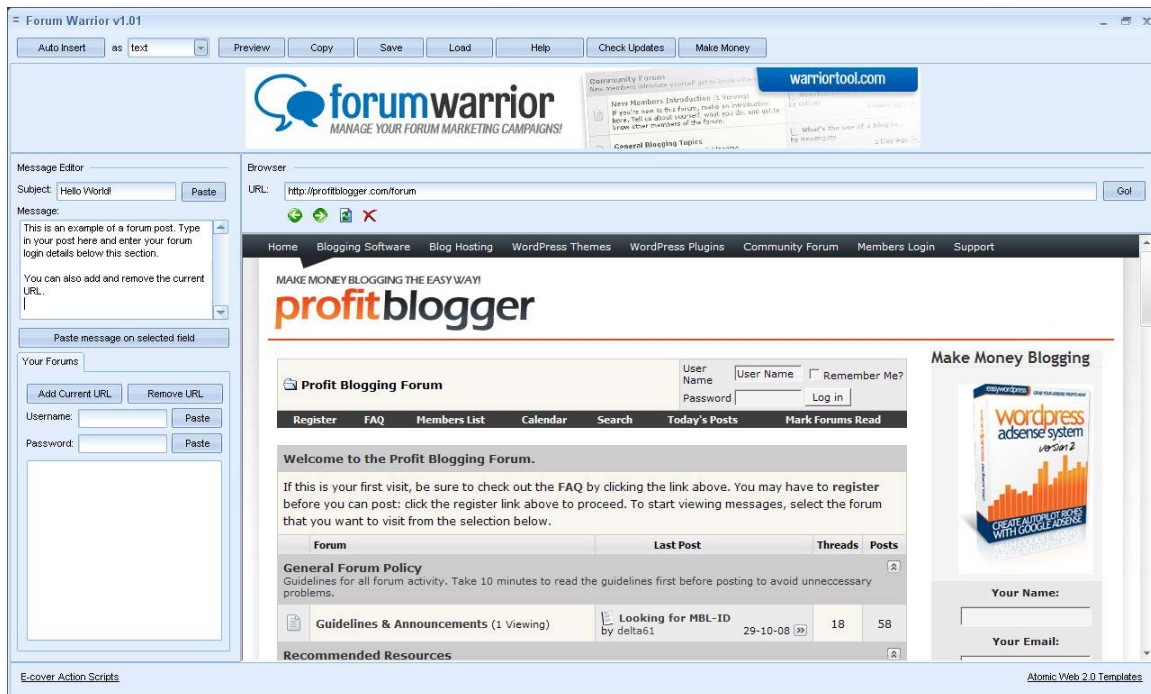

2. Go through the installation process and once you're done, select the “Launch Forum Warrior” option and click “Finish”.

3. FOR WINDOWS VISTA USERS: [Please check this video](#) for an additional step to complete in order to use Forum Warrior on your computer.

Using Forum Warrior

1. On the right side of the window, enter your forum post subject and post content.
2. Visit the forum of your choice by entering the URL in the software browser and clicking "Go".
3. You can add in your forum login details on the bottom left side, as well as saving it by clicking on "Add Current URL" for future use.
4. Browse the forum for a thread you would like to reply in and click on the reply button.
5. Click on "Load" to load a previously entered message.
6. You can click on "Preview" at the top to have a preview of how your message will look like.
7. Once you are satisfied, click on "Paste Message on Selected Field" to have Forum Warrior to automatically fill in the form.
8. Click on the submit button to post your message.
