

Quick QR User Guide

Installation

This software works on Windows only!

Simply extract both files, QuickQR-CodeGenerator.exe and qr.lib into the SAME directory and you are ready to go.

Execution

1. Execute quickqr.exe and enter...

Primary email: akleines@ono.com

License Key: 1QR45679

...and hit the Activate button

Note: You may also request your own license key

2. Select QR Code type

3. Enter QR Code specific information (URL or email, or SMS number, ...)

4. Hit Generate Code
(optionally change QR Code background first)
5. Save as BMP or JPG or copy to clipboard
